Objective

Fullstack Developer with expertise in React.js, TypeScript, Node.js, Express.js and Sequelize. Skilled in building interactive front-end applications and designing robust back-end systems, including APIs and databases. Passionate about creating scalable, high-performance solutions that enhance user experience and drive business success.

Experience

Freelance Fullstack Developer

2025 - Present

- Built and delivered fullstack applications with React.js for front-end and Node.js/Express.js for back-end.
- Designed RESTful APIs and integrated MySQL databases for efficient data management.
- Optimized application performance and scalability through clean code and database optimization.

Education

University of Aleppo

Bachelor's Degree in Computer Engineering (Expected 2026)

Skills

- Programming Languages: C++, Java, JavaScript, TypeScript
- Front-End Development: HTML, CSS, Bootstrap, TailwindCSS, React.js
- Back-End Development: MySQL, Node.js, Express.js, Sequelize
- Tools & Platforms: Git, GitHub, VS Code
- APIs: RESTful APIs.

Projects

Movie Display Web App

[GitHub Repo](#)

Developed a React.js-powered movie browsing platform .
Implemented optimized rendering for a seamless user experience

Football Field Booking Platform

[GitHub Repo](#)

Built a responsive web app for booking football fields with filters, payment systems, and RESTful API integration. Includes a dashboard for field owners to manage bookings and pricing, and an admin panel for platform

management.

Users can browse fields, filter by name, city, and area, and make online reservations.

Real Estate Project

[GitHub Repo](#)

Built a real estate listing web application with search, filtering, and dynamic API integration.

Developed a responsive UI using React.js and Bootstrap.

Simple Product Purchase Platform

[GitHub Repo](#)

Developed a simple full-stack online platform with user authentication and order processing.

Built responsive UI using React.tsx , and Tailwind CSS .

Implemented RESTful APIs with Node.js , Express.js , and Sequelize ORM .

Designed relational database schemas in MySQL with foreign key relationships.

Languages

- Arabic: Native

- English: Professional Working Proficiency (B1)
